Essex County College's online campus, provides students with an experience to fit the rhythm of your lives. Whether you are a first-time student, a career-changer, or a lifelong learner, Essex Online has something for everyone.

"Flexibility" is not just a buzzword; it is the blueprint of this global campus. We recognize that sometimes you need the energy of a physical classroom and at other times the convenience of your living room. While our Main Campus (Newark) and West Essex Campus (West Caldwell) offer a plethora of in-person courses to complete our certificate and degree programs, Essex Online offers...

- *Synchronous Courses*: Live virtual offerings with scheduled days and times which allow for real-time interaction with professors and peers.

- *Asynchronous Courses*: Fully online offerings through the Moodle Learning Management System, which allow the ultimate flexibility in both scheduling and working at your own pace.

These options offset the need to worry about commuting or how to balance your personal lives with your academic lives. Mixing and matching these modalities creates an experience that respects your time and goals. But, no matter how you do it, you will earn a credential that carries the weight of the Essex County College name, backed by a community that supports you from enrollment to graduation.
