

# BLOOMBERG TERMINALS ON CAMPUS

---

Bloomberg Terminals are a modern icon of financial markets used by more than 325,000 of the world's most influential decision makers. ECC now has full access to this real-time financial market data from Bloomberg as do top business and financial industry experts, such as historical data, market moving news, and analytics. This enables students to become familiar with tools used in financial services, and reinforces classroom theories, while faculty can use to further their own research.
